

RANGASWAMY YAGATEELA

SAP BTP CAPM Developer

+1 682-407-4466 • rangaswamy71506@gmail.com • Irving, Texas, USA

PROFESSIONAL SUMMARY

Results-driven SAP BTP CAPM Developer with 3+ years of hands-on experience designing and deploying cloud-native applications on the SAP Business Technology Platform (BTP). Highly proficient in the SAP Cloud Application Programming Model (CAPM) using Node.js and advanced Core Data Services (CDS) modeling. Proven ability to build robust OData V4 services, model complex SAP HANA Cloud databases, and seamlessly integrate backend services with SAP S/4HANA and frontend applications.

TECHNICAL SKILLS

Core Technologies: SAP BTP, SAP CAPM (Node.js), Core Data Services (CDS), SAP HANA Cloud

Programming Languages: JavaScript, TypeScript, Node.js, SQL

Web Services & APIs: OData V4/V2, RESTful APIs, JSON

Integration & Security: SAP Cloud Integration (CPI), SAP Document Management Service (DMS), SAP Adobe Document Services (ADS), XSUAA, IAS/Entra

Tools: SAP Business Application Studio (BAS), Visual Studio Code, Git, Postman

EXPERIENCE

Anand PAG — Mar 2025 – Present Irving, Texas, USA

SAP BTP CAPM Developer | SAP BTP, CAP (Node.js), CDS, HANA Cloud, OData V4, XSUAA, CPI, DMS, ADS

- Developed a secure and scalable cloud-based Vendor Portal on SAP BTP using CAP (Node.js), enabling external vendors to access services without direct SAP S/4 backend access.
- Designed a two-layer data architecture using CDS to process OData payloads from S/4HANA into staging and transactional layers, ensuring data integrity and reliability.
- Modeled complex relational data structures in SAP HANA Cloud using CDS, organizing entities into staging, master, transactional, and user domains.
- Implemented row-level security and instance-based authorization using XSUAA scopes, ensuring strict data isolation for multi-vendor environments.
- Built and exposed modular OData V4 services for vendor operations, administrative functions, and system integrations.
- Integrated SAP CPI for real-time updates with S/4HANA, SAP DMS for document management, and SAP ADS for dynamic PDF generation.

Tata Consultancy Services (TCS) — May 2021 – May 2023

SAP BTP Developer | SAP BTP, CAP (Node.js), CDS, HANA Cloud, OData V4

Hyderabad, India

- Developed a side-by-side cloud extension on SAP BTP using CAP to enhance analytical capabilities for sales and order data.
- Designed and implemented CDS-based data models with associations and compositions for complex order management scenarios.
- Created and exposed OData V4 services to support high-performance analytical dashboards.
- Implemented business logic using Node.js event handlers for data transformation and validation.
- Integrated XSUAA for role-based access control, ensuring secure and controlled data access.
- Optimized data retrieval performance by implementing efficient CDS views and query structures, reducing

response time for analytical reports.

- Collaborated with cross-functional teams to gather business requirements and deliver scalable solutions aligned with client needs.

EDUCATION

Southern Arkansas University, Magnolia, AR

Master of Science in Computer and Information Science

CERTIFICATIONS

- SAP Certified Associate – Back-End Developer – SAP Cloud Application Programming Model
